Full-Stack Developer • AI/ML Engineer

PROFESSIONAL SUMMARY

Final-year B.E. Information Technology student with a 9.2/10 CGPA, focused on full-stack development and applied AI/ML. Built web, mobile, and AI-enabled applications using React, Next.js, TypeScript, Flutter, Django, TensorFlow, and Gemini. Experienced in ML experimentation, REST API integration, real-time data visualization, and on-device image classification. Currently an AI/ML Developer Intern at Bharatiya Open Volunteer Association (OVA), in association with ORELSE, with previous internship experience at Flyrank AI and InAmigos Foundation. Google Student Ambassador 2026 and Runner-Up at Colloquium '25.

EDUCATION

St. Francis Institute of Technology, Mumbai *B.E. Information Technology* *CGPA: 9.2/10* *2023 – 2027*

Mother Mary's Junior College, Mumbai Score: 76% | Active in chess and carrom competitions *2023*

Mother Mary's High School, Mumbai Score: 90% | Active in school-level sports events *2021*

INTERNSHIP EXPERIENCE

AI/ML Developer Intern — Bharatiya Open Volunteer Association (OVA) *Jul 2026 – present*

In association with ORELSE Private Limited · Remote

- Contribute to AI/ML and NLP workflows through data preparation, preprocessing, analysis, and model evaluation.
- Assist with experiment design, model validation, research, and documentation of technical findings for AI/ML integration.

Machine Learning Intern — Flyrank AI *Jul 2026 – Sep 2026*

Startup · Remote

- Used Python and Jupyter notebooks to analyze search and content data and assign scores to help prioritize content opportunities.
- Compared scoring results across experiments to understand how different approaches affected content rankings.
- Documented experiments and findings for the Refresh / Content Opportunity Scoring workflow.

AI Web Development Intern — InAmigos Foundation (IAF) *Jun 2026 – Jul 2026*

NGO · Remote

- Developed web features using Next.js, React, and Node.js for a social-impact platform.
- Collaborated on code reviews and iterative development to improve and refine application features.

PROJECTS

Symphonix — Single-GPU AI Inference & Governance Stack *Aug 2026 – Present*

GitHub

- Built an AI inference management platform using FastAPI and React, with user authentication, role-based access, and checks for sensitive information and prompt injection.
- Implemented request scheduling, GPU memory checks, and SHA-256-based audit logs to manage inference requests safely and track system activity.
- Developed a monitoring dashboard to view request status, GPU information, access decisions, and audit records; tested core features with automated tests.

ImpactGlobe - Real-Time 3D Geopolitical Intelligence Dashboard *Apr 2026 - May 2026*

impact-globe.vercel.app | GitHub

- Built an interactive 3D globe dashboard using Three.js and Leaflet, integrating live data from Open-Meteo, USGS, and NASA EONET to visualize earthquakes, wildfires, air quality, and wind in one interface.
- Automated the generation of structured geopolitical intelligence briefs using Gemini 2.0 Flash and scheduled Vercel Cron Jobs, delivering recurring reports with Forex-related context every four hours without manual triggering.

HemiSphere - AI-Powered Cross-Platform Community Safety App *Jan 2026 - Apr 2026*
hemisphere-dev.vercel.app | GitHub

- Developed an on-device image-classification model using MobileNetV3 and transfer learning to identify accidents, construction hazards, and garbage, enabling incident classification without cloud-based inference.
- Built a cross-platform community-safety app using Flutter and Firebase Firestore, enabling real-time incident reporting, resource sharing, and community alerts.

HeritageGuide - Django-Powered Intelligent Travel Companion *Jan 2025 – Apr 2025*
heritage-guide.vercel.app | GitHub

- Built a Django-based travel companion using Leaflet, OpenStreetMap, and OSRM to provide interactive maps, route planning, and heritage points of interest across India; earned Runner-Up (2nd Prize) at Colloquium '25 among 200+ participants.
- Implemented slot-based attraction booking with real-time availability checks and a multi-day itinerary planner organized by City → Attraction → Day → Activity, helping users coordinate visits and avoid booking conflicts.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C/C++, SQL
Web Development: React, Next.js, Node.js, Express.js, Django, REST APIs
Mobile & Visualization: Flutter, Three.js, Leaflet, Tailwind CSS
AI/ML: TensorFlow, MobileNetV3 CNN, Gemini API, Pandas, NumPy
Databases & Tools: Firebase, Supabase, MySQL, PostgreSQL, MongoDB, Git, GitHub, Jupyter Notebook

LEADERSHIP & EXTRACURRICULAR

Google Student Ambassador (GSA 2026) *May 2026 – Present*

- Selected as Google Student Ambassador representing SFIT in Google's Gemini Student Ambassador Program 2026 (1500+ colleges nationwide).
- Promote awareness of Gemini by sharing practical AI use cases and encouraging students to explore AI tools for learning and productivity.

Ideathon Director - Samadhan 2026, SFIT *Jan 2026 – Apr 2026*

- Led a national-level ideathon for 100+ participants by coordinating event logistics, vendor management, and on-ground operations.
- Partnered with 3 NGOs, Ek Saath: The Earth Foundation, Blue Ribbon Movement, and Mumbai Citizens Forum to bring real-world problem statements and mentorship opportunities to participating teams.
- Managed the organizing committee through task delegation, stakeholder coordination, and timeline tracking from initial planning through prize distribution.

Head of NSS (National Service Scheme), SFIT *Mar 2025 – May 2026*

- Led 50+ student volunteers across community service initiatives, social outreach programs, and campus drives by coordinating activities and assigning responsibilities.
- Coordinated with faculty and student volunteers to plan events, manage execution, and complete post-event reporting

Team Leader - Cipher Monks (Hackathon Team) *Jun 2025 – Present*

- Lead a team across multiple major hackathons by coordinating technical planning, task allocation, and team collaboration to deliver projects under tight deadlines.

ACHIEVEMENTS & CERTIFICATIONS

- **Runner-Up (2nd Prize) — Colloquium '25, SFIT** (IT for Good Governance Track) *Apr 2025*
  National-level competition with 200+ participants.
- **Machine Learning Mastery** — Devtown × GDG CSMU × MSC GNIT *Jun 2026*
- **Data Analytics Bootcamp** — NoviTech R&D Pvt. Ltd. *Jun 2026*
- **AI Agent Builder Workshop** — BotCampus AI *Nov 2025*
- **Web Auth Intensive: Basic to Advanced Security** — Devtown × GDG VIT-AP × MSC MSIT *Oct 2025*
- **NoSQL Ninjas: MongoDB Edition** — Devtown × GDG VIT-AP × MSC MSIT *Sep 2025*
- **Volunteer — Colloquium '25**, Department of IT, SFIT *Apr 2025*

HOBBIES & INTERESTS

Chess (national-level competitor) · Rubik's Cube (multiple variants) · Cricket (2× Box Cricket Winner) · Carrom (school-level)
